CPNguru.com

Instant CPN Number Program, Unlimited Tri-Merged Credit Profile Numbers.

Hi, and welcome to the CPNguru.com family. We are very happy to see you take your first step to achieving your financial goals. In order to reduce response times, we ask that you please read this entire program before sending us your questions. We thank you for understanding. If you have any questions or concerns our staff is always ready to help. You can find our contact information on our website or at the bottom of this program, thank you.

A CPN number is a great way to obtain new credit fast. Creating CPN numbers has never been so easy. In this program we will teach you step by step how to Create, Validate and tri-merge a CPN number to obtain your first approval. A CPN Number is a 9 digit number that can be used in lieu of your social security number for the purposes of obtaining credit. It's a 100% legal and ethical way of obtaining credit and protecting your identity.

We encourage you to use a CPN number while you fix your own credit. If you want to learn how to fix your credit in as little as 21 days please visit www.BureauBlaster.com where we teach you how to perform a credit sweep the right way. It's very important to note that CPN numbers have limitations.

Any information contained herein is solely for educational purposes. CPNguru.com will not be held liable for any actions taken by anyone outside of our entity. Use this product at your own risk. Please make sure you do not violate any Local, State or Federal Laws.

If you follow this program closely at the end you should have a Legal, Validated, Tri-merged CPN number ready for new credit. The process should take about 15 minutes from start to finish. Enjoy the program and good luck to you in your future endeavors.

The first thing you will need to do is unlearn everything you have heard about CPNs. No one wants you to know how to create CPN numbers because it is a very profitable business. A CPN number can range from $100-$500 for a bare number. And 100% of that is profit for the companies issuing them.

We are retired from the CPN business because it is honestly too much of a headache to deal with. You are constantly dealing with people who are notorious for not paying their bills, scammers, and people trying to use your service to hide their identity or commit financial crimes using CPN numbers. IE: racking up hundreds of thousands of dollars of debt and walking away and not paying a dime. Leaving the company who issued the CPN in a questionable position. So that is why we decided to release this CPN program.

Whatever you do with your CPN is your business. Just remember if you rack up debt on your CPN number you are 100% liable for it. The banks will come after you if you fail to pay your bills. They will track you down and add all the debt on to your own credit report. You can end up in court fairly quickly if a bank finds out you are using a CPN number with the intent to defraud them.

Sections and Content

Introduction

- **Truth and Facts plus supporting laws**

Section 1 (Making A CPN Number)

1. **CPN Structure First 3 Digits**
2. **CPN Structure 2 Digit Prefix**
3. **CPN Structure last 4 of your CPN**
4. **Checking Your Number**

Section 3 (Adding name and info to CPN)

10. **Tri-Merging Your CPN**
11. **Setting Up Public Records Profile**
12. **Credit Karma**

BONUS OFFERS DO THIS ONLY AFTER DOING STEP 1-12 and Waiting 48 Hours!:

30K Loan: Apply for Roadloans.com Auto loan up to $30k Note: You cannot register a vehicle with a CPN number. You must tell the finance manager at the dealer you are using a CPN. They will process the loan with your CPN and register the vehicle in your social.

Credit Card: Apply for CrownJewelers.com $1500-$2500 Store Card

Store Card: Apply for MDG.com $1000-$2200

The truth, the facts and how to create your CPN number

THERE IS CURRENTLY NO LAW IN EFFECT WHICH PREVENTS YOU FROM CREATING AND USING A CREDIT PROFILE NUMBER/SECONDARY CREDIT NUMBER FOR IDENTITY PROTECTION PURPOSES. YOU ARE 100% RESPONSIBLE FOR ALL DEBT OBTAINED THROUGH THE USE OF A CPN NUMBER AND YOUR SOCIAL SECURITY NUMBER.

There is no government website to apply for a CPN number. A CPN number is based off a loop hole in the law that says financial institutions cannot deny you credit because you do not wish to share your social security number. It's a legal loophole being used by millions of people including the government, and that is why they will never make a law to prevent the use of CPN numbers in the future. Read the current laws below.

31 CFR 1.32 – USE AND DISCLOSURE OF SOCIAL SECURITY NUMBERS.

- 1.32 Use and disclosure of social security numbers. (a)In general. An individual shall not be denied any right, benefit, or privilege provided by law by a component because of such individual's refusal to disclose his social security number.

  Social Security Numbers are designed for tax reporting purposes only. Private companies including banks, financial institutions and consumer reporting agencies such as Equifax, Trans Union, and Experian have taken it upon themselves to use your social security number to track your financial history.

  They have done this because congress has failed to enact new credit reporting laws since the 1970 FCRA (Fair Credit Reporting Act) when credit was not as prolific as it is now. Because of congresses failure to act over 13,000,000 Americans have their identity stolen each year. The 1970 FCRA also paved the way for the CPN loop hole. Where you can create a secondary number for credit reporting purposes.

  The government has been using CPN numbers for decades, that's how they protect the financial information of thousands of high ranking government employees.

  Artists and athletes also use them to protect their identity from being stolen.

Facts

- Creating a good CPN number is easy but, takes some practice and patience. You may need to try 2-3 times to get a 100% working number.

- A New CPN number carries no credit score whatsoever. You have to build it just like you would a SSN. It can take up to 2 years to mold a perfect CPN number.

- You do have the option of using CPN friendly trade-lines in order to speed the process up substantially. Visit: https://www.cptradelines.com for more info.

- **If you do something wrong, you risk merging your CPN and SSN, making your CPN just as bad as your SSN credit wise.**

What you can and cannot do with a CPN Number:

- **You cannot use this number to file taxes.**

- **You cannot use this number to apply for government assistance.**

- **You cannot use this number to purchase a home with a federally insured loan.**

- **You cannot use this number to register a motor vehicle.**

- **You can only use this number as a way to protect your social security number from theft when applying for credit.**

Now, let's get to what you came here for a CPN Number!

Section 1

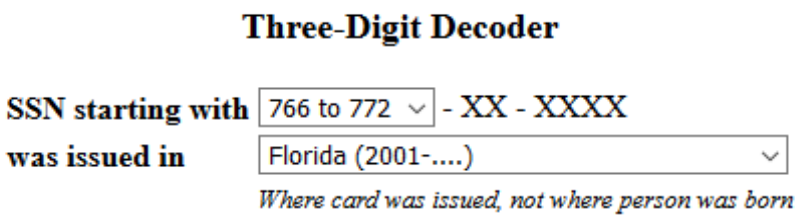
Making a CPN Number

CPN Numbers are generated randomly but, they need to match certain standards followed by social security numbers.

1. First you will need to pick your number. Visit: http://stevemorse.org/ssn/ssn.html

   This website contains data on the construction and generation of social security numbers. You will use this tool to assure you get a number that matches your state and that is most likely not assigned to someone else. You will be checking the status of your chosen number in the next step.

2. Once on the site use the first section to generate the first 3 digits of your number. What you do is use the second drop down menu "was issued in" **with the latest date** to pick your state. This will give you a range of numbers which we will carry on to the next step. For this example we will be using Florida as the requested state. So my first prefix range is 766 to 772.



Each State Has Multiple Dates PICK THE LATEST

3. Now we will move to the second section on the website. Here is where we will generate the second prefix of numbers. Our first prefix will be 772. You will choose 772 in the drop down menu “SSN Starting with”. Now we will pick the second prefix. Start by choosing a 2 digit prefix on the right side of your first prefix. Until you get the result “Not Issued” Our number is 11. So now we have a partial CPN 772-11-XXXX.

Five-Digit Decoder

SSN starting with 772 - 11 - XXXX
was issued in 772-11: Not Issued
Where and when card was issued, not where and when person was born

(THIS SITE IS NOT AFFILIATED WITH US IN ANY WAY, IF YOU ARE HAVING ISSUES WITH THE SITE CONTACT THE SITE ADMINISTRATOR)
PLEASE READ FAQ BELOW FOR MORE INFO AND TIPS!

FAQ:

Please read this before emailing us, we appreciate your cooperation.

- **While searching for a number on Steve Morse website I got this error: unexplained error: 099034189171s, why is this happening to me?**

  The Steve Morse website is a free resource used by millions of people including government agencies. There system is designed to limit your searches to reduce their cost since they offer the service for free. So if you are scrolling through more than 3 numbers every minute they will block your ip address.

  Normally this ban last a few days but, the third time they ban you its final. My suggestion is working slowly, and not searching numbers sequentially. Search randomly you will find an unissued number without any issues. Thousands of people have done this and it always works.

As an alternative when this happens we suggest you use another device for example your phone or tablet from a different network connection. You should also clear the cookies and cache on your device if you decide to use the same device from a different network.

- **I checked all the numbers and I cannot find one from my state that is unissued.**
  This is a question we get too often. Most times it's a simply from trying to complete this process too fast. In step 2 of this program. When picking a 3 digit prefix for your number on the first section of the website remember to always pick the one with the latest date range.
  There may be multiple for your state. For example, one may be 1930 -1986 the other maybe 1976-2001 and the next may be 1997 – …., You always want to pick the one with the …., if there is no …. then the latest date. In the previous example it would have been 1976-2001 if not for 1997 - ….

  Continue Below

  Another common reason is not going through the entire date range. I will use Georgia as an example the correct date range for Georgia would be 1997-…. And the prefix range it gives us is: 667 to 675.

  You have 667,668,669,670,671,672,673,674 and 675 to choose from. Pick a random one when searching. Then pick a random second 2 digit prefix and search.

  You will find a numbers 99% of the time. There may be a very rare instance which we don't commonly run into where there are no numbers for your state. If that is the case, the best option is to pick either the state where you were born if it's not the same you are already in or the closest state to your current state.

READ: Validated Issued CPN's

Instead of using the "Not Issued" Numbers, some people use Issued numbers within the last 18 years. Why within the last 18 years? You may ask. The reason is people don't start using their credit until they turn 18. So using anyone's SSN as a CPN until they turn of age would be safer than trying to use the SSN of a person who is already of age and may be using their number for credit purposes.

BEWARE:

"Validated Issued CPN's are dangerous". You are essentially taking someone's SSN number and using it as your CPN. Although a lot of people do this with great success I personally do not suggest you do this. Even though that method is much better for getting credit.

THAT IS JUST A FACT. I DO NOT SUGGEST YOU DO THIS.

Checking Your Number

4. In this step you will complete the cpn number. It is very important for you to write this number down. You don't want to forget this.

   Visit: http://www.ssnvalidator.com/
   Enter your partial CPN number on the screen.

   Now it's time to complete the CPN number. There is no equation to resolve the last 4 digits of your CPN number. You just need to choose 4 number. We will be using 5245. Our CPN Number is complete 772-11-5245. Now we need to make sure it doesn't belong to a deceased person. Enter the last 4 digits of the CPN. Your results should look like this.

RESULTS:

- **Social Security Number:** 772-11-5245
- **Date of this Report:** February 16, 2019
- **State of Issuance:** None Available.
- **Approx. Date of Issuance:** None Available.
- **Issuance Status:**
- **SSA Death Masterfile:** No record as of 03-25-2014
- **Status: According to Social Security Administration data, this SSN has NOT been issued as of the Social Security Administration's switch to 'Randomization' on June 25, 2011. Sorry, this website is unable to verify social security numbers issued after this date.**

Scanning Your Number

5. Now we need to make sure no one is using this number. Most companies claim to use "Safe Scan" untrue, they use a program called instantID offered by Lexis Nexis used by companies to verify your SSN number.

   In order to get access to this system you need to pass a background check, have an active debt collection agency or a data collection company. Also their minimum plan starts at $300 per month. If you want to find out more about Scan safe visit: https://risk.lexisnexis.com/products/instantid

   Luckily for you there is a work around for this. There are a lot of 3rd party companies who sell instantID scans. One example is search bug, with search bug you can perform 3 free scans.
   After your 3 free scans you can purchase additional search credits. Their smallest package cost $8.00 and includes 12 verifications. If you are going to

be reselling CPN numbers we suggest you get one of the bigger packages which gives you a lower cost per search.

If you are just creating a number for you the 3 free scans should be enough.

First step visit: https://www.searchbug.com/peoplefinder/verify-ssn-free.aspx

Once on the site enter your CPN number into the search box on the left hand side of the website. **PLEASE NOTE YOU DO NOT HAVE TO USE SEARCH BUG. YOU CAN USE ANOTHER SERVICE IF YOU WANT!** See the image below, which is the result you want. If your number says issued, or belongs to a deceased person STAY AWAY from that number. Start over! MUST SAY Status: Reserved for future use or Inactive. Any other number belongs to someone already.

772-11-5245 is **Valid SSN**	
Status:	**INACTIVE**
State of Issuance:	**FLORIDA**
Year of Issuance:	**(RESERVED FOR FUTURE USE)**

FAQ:

Please read this before emailing us, we appreciate your cooperation.

- **Search Bug says I have 0 credits to do free searches. I thought you said Search Bug was free?**

  Search Bug is a very big site that offer many services, not just number scanning. Chances are you have already accessed their website or their partner websites and used one of their free services such as free criminal searches, reverse phone search etc. They may count they may not give you the free credits.

  If this is the case, you can try changing devices or networks. If that still doesn't work try a co-workers or friends device, that is the only method we have found to help you guys get the free credits. If we find a better solution in the future you will receive it through your monthly updates. But, please never use a number before scanning it. You are better off

paying for their smallest credit package which is $8 and being sure you have a clean safe number.

PLEASE TAKE THE FOLLOWING STEPS VERY SERIOUSLY AS YOU MAY DAMAGE YOUR OWN CREDIT IF NOT DONE RIGHT.

Section 2

Setting up Profile

6. Now you have a complete CPN number. Now we need to gather some basic info for this file. The first step is going to be choosing an address that best fits. You will need to use an address where you have never received mail or had any bills under your name. This is very important, if you use an address that is linked to you, the credit files could mix, you don't want that. Choose an address where you will be able to pick up mail. But, not to close to your own address.

7. Now you will need a phone number for your CPN. You can use Google voice by visiting http://google.com/voice or apps on your smart phone like TextFree+. You can use any app you want. But, like the address you cannot be linked to the number, or you run the risk of mixing your files.

8. Now you will need an email address. Like in the past 2 steps it cannot be linked to you. I cannot stress this enough. Gmail, Yahoo, MSN etc.

9. Now you will be writing down some very important information. You will be writing down you're Annual Income, Time at address, Type of job, Time on job and some other details. Please use only the specific ranges we provide.

Annual Income must range from $50,000-$80,000

Your Time at Current Address is 5 Years 5 Months

Your Type of job is = Self Employed

Your Time on the Job Is 5 Years 5 Months

Always use identical information when applying.

Section 3

Tri-Merge &Public Records

This is where you get your name new address and CPN number to sync on the credit bureaus system, creating you a new credit file.

Tri-Merging Your Number

10. Now you're ready to tri-merge your new CPN number. Tri-merge basically means to merge the above information about you with the credit bureaus establishing a new credit profile and credit score. **REMEMBER YOU HAVE A 0 CREDIT SCORE ON YOUR CPN** and you need to start building from this point. Start by applying to 1 or 2 cards from completely different banks. I suggest Capital one and then, something sub-prime such as First Premier. **YOU WILL BE DECLINED! THIS IS WHAT YOU WANT!** In this step you are only creating your account with the 3 major credit bureaus. Wait at least 2 business days before applying for bonus offers.

Public Records Profile

11. Now it's time to setup your public record. This will cement your CPN number and allow you to do much more. It will basically put your name address and phone number in public records. So if banks search for you this info pops up. Go to: www.listyourself.net/ListYourself/listing.jsp and enter all the information corresponding to your cpn. New address, phone etc.

WAIT ATLEAST 48 HOURS BEFORE STARTING THIS STEP.

12. Go to creditkarma.com and sign up for an account using the same information you used for your CPN tri-merging. If you completed the steps above correctly and your CPN is not currently in use by someone else you will be able to open the account and see at least 1 of the inquiries from the last step. If you cannot sign up, get an error, or the information on your account does not match what you used in your tri-merge process stop now. You must start again with all new information. This means, either the CPN was detected as not belonging to you or someone else is already using the number.

EXTRA RESOURCES TRY TO COMPLETE AS MANY OF THESE AS POSSIBLE

You don't have to do all of these or right away but, it's a good idea to make your number stronger.

FAQ:

Please read this before emailing us, we appreciate your cooperation.

- **Most cards ask for ID number or documents what should I do?**

  Honestly, we use our own id numbers and documents, if you have a passport you can use that as an alternative. Using any documents besides the ones legally issued to you may be considered fraud, the only thing we can do is share some resources to help you make your own decision on what to do. Please do not email us asking about how to obtain documents, or any assistance with anything that is not legal.

  Steve Morse ID number: https://stevemorse.org/dl/dl.html

You should get an approval for all the above accounts. If you do not, chances are you made a mistake in one of the previous steps. If this is the case we suggest you start all over from step 1.

DONE!

What can I apply for? 7 Days after having a payment post to your CPN's credit report or an Authorized User trade-line you can apply for any of the following at the rate of 1 per week. Note we do not guarantee the approval of any of these cards. You must first do everything above and have something posted to the file as paid as agreed. IE one of the above bonus offers or an authorized user.

Kohls
Belks
Swiss Colony
Discover IT
Target
Walmart
Macy's
Kay Jewelers
CreditOne Visa
Chevron Visa

TIP: If you are making a second number for a family member of friend always clear your cache and try to change your IP when starting a new CPN number.

If you want to go to the next level and not wait to build your CPN number organically we suggest you purchase authorized user trade-lines. This is a great way to get your CPN number to a 750+ score rapidly. If you want to be added to our list of CPN friendly trade-lines please visit

https://www.CPtradelines.com

If we find a better resource it will be included with your monthly update.

Please read: Note these are all private companies that are in no way affiliated with us. If you experience some issue on their websites please contact them directly. YOUR TRADELINE PURCHASE IS AT YOUR OWN RISK.

Primary Trade line BONUS:

Trade line secrets. If you want to move into an apartment or get a high value loan, start with a primary rental trade-line. You can buy them for around $125.00 you can get one @ https://rentalkharma.com

---

VERY IMPORTANT MESSAGE FOLLOWS, PLEASE READ IT IN FULL! THANKS YOU FOR YOUR BUSINESS!

First of all, thank you for being a valued customer. We appreciate you choosing our CPN program over all the other programs out on the market. We work really hard to keep this program updated and working properly. We would like to hear from you if there was anything that was not properly explained or covered in the program.

Our team is always ready to answer your questions and help you in any way we can. We are hardworking honest people, if you feel like there is something that is preventing you from using this product please send us an email so we can help you. If you could not make a CPN number using this program we will give you a full refund within 30 days of your initial purchase. Check out our FAQ page CLICK HERE.

Please take a moment to read the following very important message about our partner gumroad.

Please note your purchase will appear on your credit card billing statement as GUMROAD. Please do not file erroneous chargebacks. Each download is linked to your IP and location. Gumroad fights each chargeback on our behalf and will automatically block the user from future updates and purchases of all products offered through Gumroad and its partners. If you cannot create a CPN using this program chances are you just need a bit of help from us. Send us an email we are here to help you achieve your goals. If you file a chargeback prior to contacting us all support will be nulled immediately. Thank you for understanding.

We hope this program helps you achieve your goals rapidly.

Need help? Contact us 24/7 by using our support page. CLICK HERE to visit our support page now. Your satisfaction is guaranteed. This program was updated on June 22nd 2019 to reflect new changes and add additional information.

Here are some additional offers you may like:

Trade-lines:

Want to boost your credit score or CPN?

You need trade lines. People charge anywhere from 250-$1000 per month to add you on to their credit card accounts as an authorized user. That's is just plain ridiculous when for as little as $50 you can have an account "Paid In Full" reported to your credit or clients credit in just a few days. It's called debt reassignment, we just released the new program @ https://cptradelines.com check it out today.

Credit Sweep:

Clean your own credit while using a CPN number!

Interested in a credit sweep? Check out our updated Credit Sweep Program @ https://bureaublaster.com. You will learn exactly what the pros do to remove all bad credit from credit files. 2 Methods included, updated June 22nd 2019

We hope you are happy with your purchase and would like to ask that you give our product a 5 star review. If for any reason you don't think it's worth 5 starts click the contact link above to let us know. You have a 30 Day Money back guarantee.

Thank you once again for your business and I hope this program helps you as much as it has helped thousands of other people over the past 4 years.

Signing off
